ALDBOROUGH RUBENHALL, MARTINIQUE

---

Paul Hayler is a very successful international rider, trainer, List Two judge and European Championship pony selector in the wonderful and prestigious world of dressage.

Paul has ridden all his life thanks to his parents who owned a riding school on the Isle of Sheppey, Kent. Starting out in eventing and show jumping, Paul then made the successful switch to dressage, where he was selected for the Young Rider European Team Championships held in Italy in 1987. Having spent time in Germany and Switzerland, Paul married and returned to the UK to be based at Aldborough Hall for five years.

Over the past few years Paul has successfully competed at international level with the top-class Swedish Warmblood, Martinique. The partnership has consistently performed at Grand Prix (GP) level, including Hartpury CDI, where they were 9th in the GP and 2nd in the GP Freestyle, Fry's CDI in which they were placed 4th in Inter II, 8th in the GP and 3rd in the GP Special. They were also placed 4th in the GP Masters at Hickstead and 12th at the National GP Championships.

Paul also rides two more horses at Grand Prix level; the 12-year-old gelding My Dundee and the 13-year-old gelding Severiano. Paul has successfully competed with My Dundee at the National Championships at every level, taking him up the grades from Novice to Grand Prix. The duo won the GP at Belmoredean and Fry's Premier League.

Paul is a highly respected horse trainer. He regularly competes on young horses, producing the most inexperienced of rides up through the grades to a high level.

From his current home at Jubilee Farm in Essex, Paul is also a very successful horse breeder, which includes involvement with the breeding programmes of the famous Burghof Stud in Germany.
